## EXECUTIVE SUMMARY

I am a recent graduate with a strong interest in mobile app development, particularly using Kotlin. I am a dedicated and results-oriented individual with a commitment to continuous learning, aiming to enhance both my coding skills and problem-solving capabilities.

## EDUCATION

**Bachelor of Computer Science, Amikom Purwokerto University**                   2021 - 2025
- GPA: 3.84/4.00
- Relevant Coursework: Android Application Development, Object-Oriented Programming

## EXPERIENCES IN EVENTS

**Mobile Developer, Bangkit Academy Batch 1**                   2024
- Developed an Android application using Kotlin and XML
- Worked in a team to design, develop, and demonstrate the application
- Integrated API and Machine Learning to Android application

## PROJECTS

**Banyumas Tourism**

A tourism application for the Banyumas district providing comprehensive information using Google Maps API and Jetpack Compose.

**EcoSortBin**

A capstone project integrating AI for real-time classification of organic and inorganic waste.

## HONORS & AWARDS

**Dev Certification for Android**                   2024 - 2027
- UI Design with XML: Designing intuitive user interfaces.
- Database Management: Efficiently handling data operations.
- Architecture Components: Creating scalable Android applications.
- Background Task Management: Scheduling and managing background operations.
- Testing: Ensuring robust app performance and reliability.

## SKILLS

**Language:** Indonesian, English
**Tools :** Android Studio, Figma, Git
**Soft Skills:** Kotlin, Problem Solving, Critical Thinking, Teamwork
